Response to Amendment

Applicant's arguments filed 6/6/05 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last office action.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 0146101 or XP 002258554 or Shimizu or Takashima et al, all of record on 1449.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Note that the claims have been amended to include the use of the polycondensation product in the refractory field but do not disclose any steps of the process to show how.

Note that the requirement for the claims is a polycondensation product produced by reacting a bisphenol residue from the production of bisphenols with an aldehyde in an acidic medium.

The references do disclose said requirements. Therefore, the use of said resins in the refractory field would be considered inherent unless applicant provides evidence to show that the references relate to the use of said resins in different field.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1711

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
